Pays à risques

Risques de maladies spécifiques au pays comme rapportés*.

<p>Albania Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Rickettsiosis Subcutaneous Dirofilariosis</p>	<p>Cyprus Babesiosis Ehrlichiosis Heartworm Disease Leishmaniosis</p>	<p>Czech Republic Anaplasmosis Lyme Borreliosis Heartworm Disease sc. Dirofilariosis Tick-borne encephalitis</p>	<p>Norway Anaplasmosis Lyme Borreliosis Tick-borne encephalitis</p>	<p>Slovenia Anaplasmosis Babesiosis Heartworm Disease Lyme Borreliosis Tick-borne encephalitis</p>
<p>Austria Anaplasmosis Babesiosis Lyme Borreliosis Tick-borne encephalitis</p>	<p>Denmark Anaplasmosis Lyme Borreliosis Tick-borne encephalitis</p>	<p>Estonia Anaplasmosis Lyme Borreliosis Tick-borne encephalitis</p>	<p>Poland Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis</p>	<p>Spain Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis sc. Dirofilariosis</p>
<p>Belarus Anaplasmosis Babesiosis Lyme Borreliosis sc. Dirofilariosis Tick-borne encephalitis</p>	<p>Finland Anaplasmosis Lyme Borreliosis Tick-borne encephalitis</p>	<p>France Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis sc. Dirofilariosis Tick-borne encephalitis</p>	<p>Romania Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis Tick-borne encephalitis</p>	<p>Sweden Anaplasmosis Lyme Borreliosis Tick-borne encephalitis</p>
<p>Belgium Anaplasmosis Babesiosis Lyme Borreliosis</p>	<p>Germany Anaplasmosis Babesiosis Lyme Borreliosis Tick-borne encephalitis</p>	<p>Italy Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis</p>	<p>Russia Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis sc. Dirofilariosis Tick-borne encephalitis</p>	<p>Switzerland Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis Tick-borne encephalitis</p>
<p>Bosnia and Herzegovina Anaplasmosis Babesiosis Ehrlichiosis Hepatozoonosis Leishmaniosis Lyme Borreliosis sc. Dirofilariosis Thelaziosis Tick-borne encephalitis</p>	<p>Greece Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis</p>	<p>Lithuania Anaplasmosis Lyme Borreliosis Tick-borne encephalitis</p>	<p>Serbia + Cosovo + Montenegro Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis sc. Dirofilariosis Tick-borne encephalitis</p>	<p>Turkey Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis Tick-borne encephalitis</p>
<p>Bulgaria Anaplasmosis Ehrlichiosis Heartworm Disease Lyme Borreliosis sc. Dirofilariosis Tick-borne encephalitis</p>	<p>Malta Leishmaniosis</p>	<p>Moldova Anaplasmosis Lyme Borreliosis</p>	<p>Ukraine Anaplasmosis Lyme Borreliosis Tick-borne encephalitis</p>	<p>UK Anaplasmosis Lyme Borreliosis</p>
<p>Crete Ehrlichiosis Heartworm Disease Leishmaniosis</p>	<p>Malta Leishmaniosis</p>	<p>Netherlands Anaplasmosis Babesiosis Lyme Borreliosis</p>	<p>Ukraine Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis sc. Dirofilariosis Tick-borne encephalitis</p>	<p>Ukraine Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis sc. Dirofilariosis Tick-borne encephalitis</p>
<p>Croatia Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Leishmaniosis</p>	<p>Malta Leishmaniosis</p>	<p>Netherlands Anaplasmosis Babesiosis Lyme Borreliosis</p>	<p>Ukraine Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis sc. Dirofilariosis Tick-borne encephalitis</p>	<p>Ukraine Anaplasmosis Babesiosis Ehrlichiosis Heartworm Disease Hepatozoonosis Leishmaniosis Lyme Borreliosis sc. Dirofilariosis Tick-borne encephalitis</p>

échelle de risques

- Pas de risques
- Risque faible (1 - 2 maladies endémiques)
- Risque moyen (3 - 4 maladies endémiques)
- Risque élevé (5 - 7 maladies endémiques)

vecteurs et maladies

-  **Phlébotome** Leishmaniosis
-  **Moustique** Dirofilariosis (petit ver du coeur)
Dirofilariosis sous-cutané
-  **Tique** Anaplasmosis / Babesiosis / Ehrlichiosis
Lyme Borreliosis
-  **Escargot Limace** Angiostrongylus vasorum (ver du coeur)
-  **Puce** N'est pas indiqué sur la carte.
Etendue générale, vecteur de différentes maladies. N'est pas repris dans l'évaluation des graduations de risques.

Le contenu de cette carte géographique représente l'information actuellement publiée. Cependant, Bayer HealthCare Animal Health Division ne prend pas la responsabilité, ni pour les données présentées, ni les conditions ou la garantie sont implicites. Dans un pays, le risque des maladies peut varier.
